McCord Memorial Library 32 W. Main St. (814)725-4057 www.mccordlibrary.org

To all our McCord Patrons,

We thank you for continuing to have patience with us during the state mandated restrictions. We have good news! Starting July 6th, we will have outdoor weather permitting limited browsing. Holds will continue being processed using the curbside pick up procedures.

What is limited browsing?

We will have 3 carts of available books for patrons to choose from. If you would like a specific book, please place holds by going online or calling (814)725-4057. Patrons will be able to look through the selection and choose books. All patrons must wear masks (unless under 2 years old or unable to wear a mask for medical reasons) and maintain social distancing while browsing.

When will limited browsing be available?

Whenever the weather permits until the next stage of opening starting July 6th.
If it is raining we will not be able to offer limited browsing.

Other important things of note:

Summer reading will continue, please request either a registration or weekly activity packet when scheduling pick up.

All items should still be returned in the book drop.

We ask that no one sanitizes or microwaves books as this will cause damage.

Thank you,
McCord Library Staff

Diary of a Wimpy Kid: The Third Wheel by Jeff Kinney

I like the third well because it is about a boy named Greg who is trying to get a girl for the valentine dance but he thought Rowly had chicken pocks then he thought the girl did and screamed so that was the end.

Palace of Mirrors By M.P. Haddix

Really good book about 13 girls who claim to be real princesses. But who really is the real princess? About struggle of living like a peasant trying to get into the palace.

Iluminae by Amie Kaufman and Jay Kristoff

The book is set in the future, centered around two survivors fleeing an attack colony. The book was excellent. I loved the many different conflicts set throughout the book, and the characters were remarkably human.

Would definitely recommend 5/5 stars

About a boy who gets amnesia and his character flips completely. Great book, funny humor. 5 stars

By Naomi Hughes

A gripping story with good action and characters, but a lack of backstory or explanation. It's a time travel story, so that is forgiven somewhat, and for time travel it is remarkably clean and doesn't get very complicated.

4/5 stars.

Summer Reading 2020: Imagine Your Story

This year our summer reading program is going to look a little different.

- ◆ Instead of in person programs, we are going to be holding online programs and distributing take home kits with prizes. We have fun for all ages planned.
- ◆ For Children Birth to 4th grade, ask for a summer reading kit. In order to pick up a kit, parents tell us the ages of their child(ren) and pick up the kits along with any books held. The kits are sorted by grade level.
- ◆ Teens and Tweens will receive activity kits and when completed their names will be entered into a drawing at the end of the program.
- ◆ The adults are not going to be left out of the fun. There will be weekly drawings for adults who check out items, as well as a final grand prize drawing for a kindle fire
